As businesses begin to reopen, the decisions we make to protect our employees and customers are crucial. The choice to open your office, store, or restaurant while striving to keep people safe is not an easy one. The Gilbert team has used our experience, resources, and expertise to develop a suite of products to help businesses provide safe and secure working environments to reopen responsibly.

Space Partitions

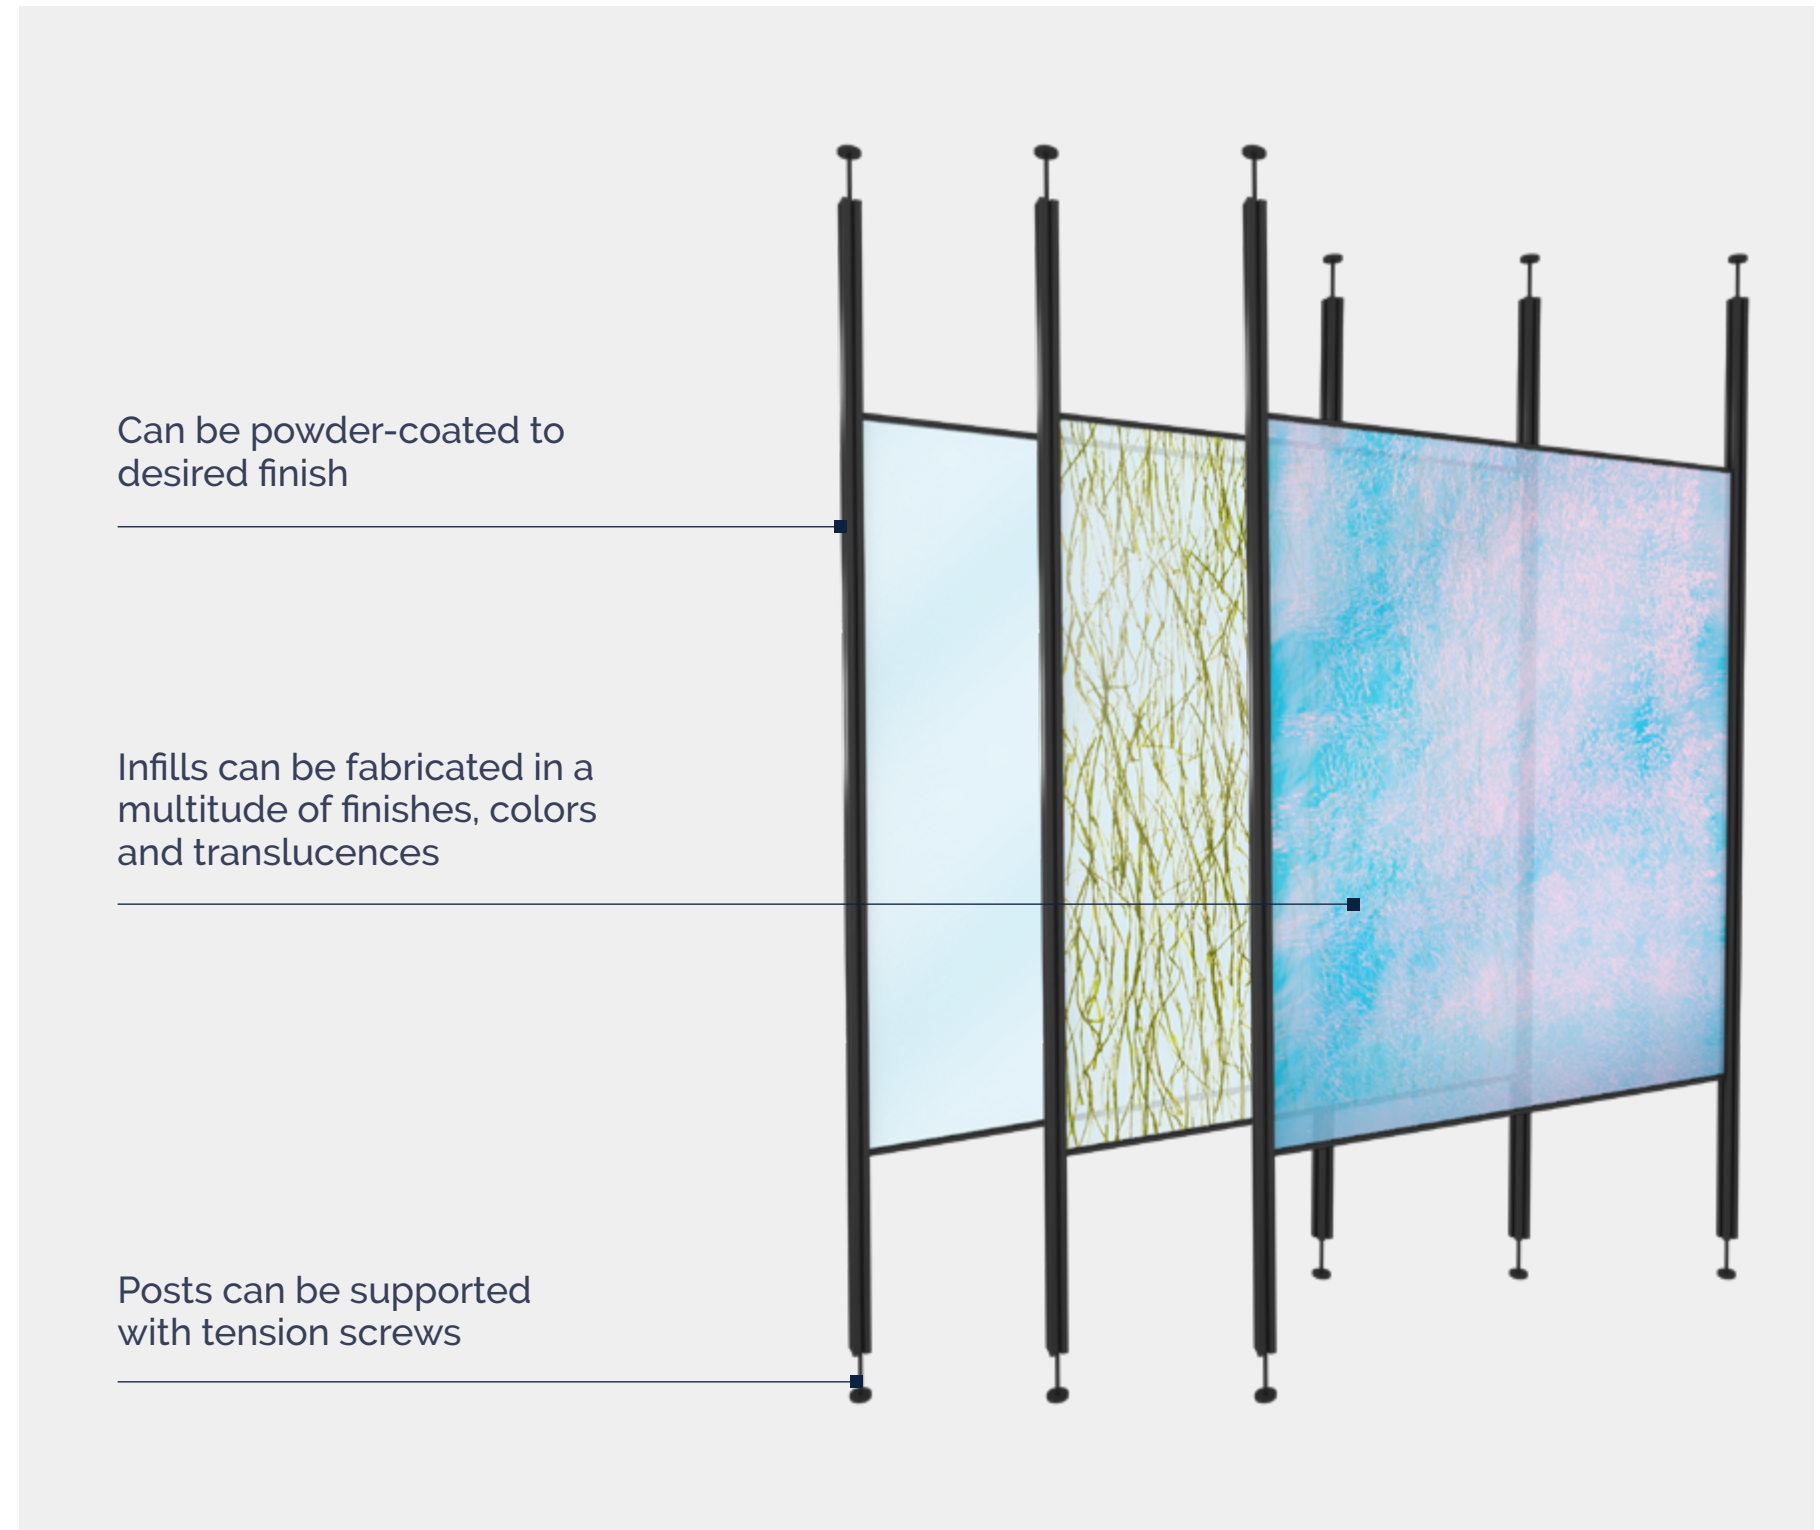

Space Partitions

Space partitions provide a safe, effective, and customizable solution to workspace management. These partitions allow employees to perform their duties while feeling protected from pathogens.

PRODUCT HIGHLIGHTS

- Easy setup, repositioning, and removal
- Customizable finishes
- Customizable widths and heights
- Vertical tension fitting or base plates allow fitting in any space
- Create full rooms, individual workspaces, or traffic flow dividers

Countertop Dividers

Desk Dividers

Countertop dividers provide protection for employees at open work benches while allowing team members and customers to see and speak to one another.

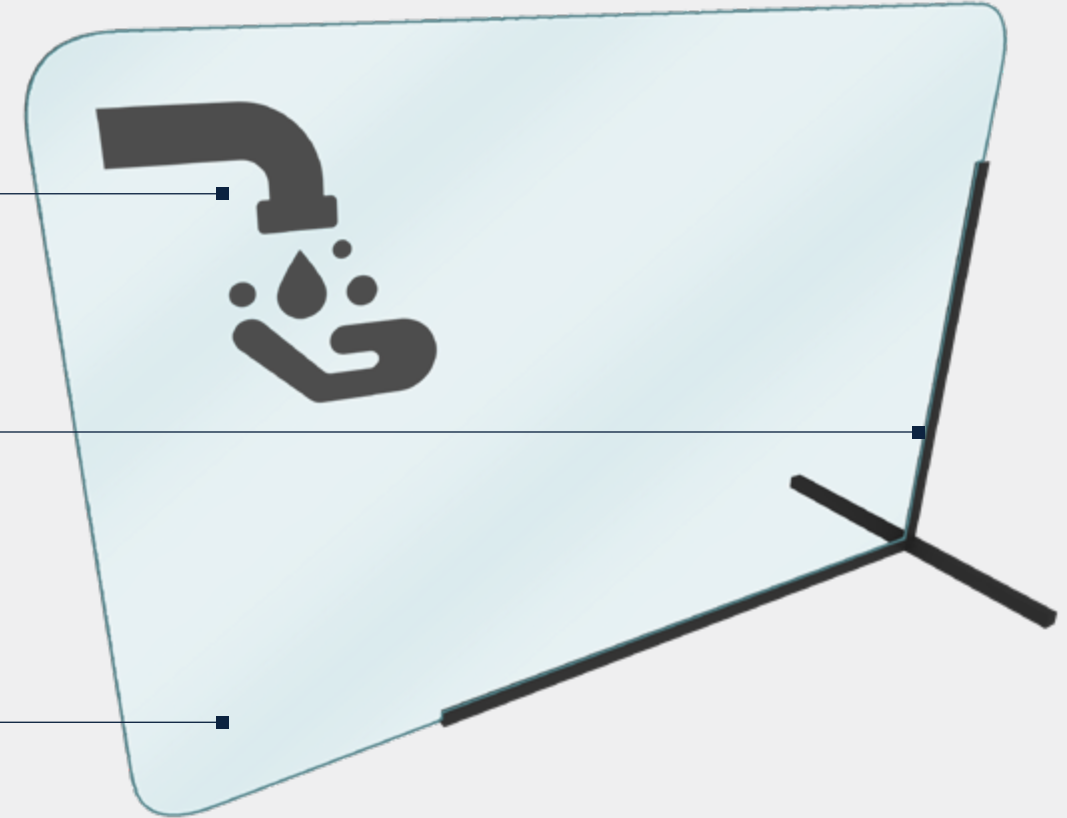

PRODUCT HIGHLIGHTS

- Choose from an assortment of color options
- Metal stands and panels can be custom-sized to your unique situation
- Graphics, lettering, and signage can be added to customize to your business

Personalized graphics/
messaging available

Attachability for
expandable modularity

Extended front for
maximum separation

Weighted Dividers

PRODUCT HIGHLIGHTS
